

To Sir/Madam,

I am writing this letter in regards to your policy about education. I believe your policy could harm us. I am also a student. A student that is struggling very hard because of financial difficulties.

I am currently at university and i find it very hard to survive with austudy payments. My family are low income earners. You see i have ony one parent and three sisters, we find it very hard to go further with our studies due to financial difficulties. I would wish that you would take into an account the low income families and how much they want to study but can't afford it. I wish you would listen to us.

If you want Australia to be a smart country. Try to change your policies so that everyone can afford to go to university or tafe. Please listen to the youth of Australia they are crying out for your help. To be honest you should listen to the former Demecrat leader. Atleast she cares. I believe that the liberal government are doing a good job but they could do better. I want them to listen to the struggling family in Australia because the richer are getting richer and the poorer are getting poorer.

I would like to thank you for taking your time and effort.

Your's faithfully,

Jemi-Prince Bernal
